

# Direction for use

## Guardian Wood Oil

Guardian Wood Oil has been developed for use on indoor wood, cherry, teak, mahogany, beech, oak etc.

The wood oil enhances the structure in the wood.

It is water repellent and protects the wood.

Guardian Wood Oil is based on bio-oils and does not contain white spirits or other solvents.

For daily cleaning use a damp cloth and clean water.

Do not use spirits, chloride or any other strong cleaning chemicals.

Any marks from water or alcohol should be immediately removed to prevent the wood from drying out.

Surfaces should be treated with regular intervals. (3-4 times a year).

Application: Apply the oil evenly on new or newly washed wood.

Use brush, sponge, cloth or sprayer for well absorbing woods.

Repeat application after 2 hours.

Use Guardian Wood Cleaner before applying wood oil.

Drying time: Approx. 3 hours.

Completely dry after approx. 24 hours.

To avoid self-ignition, any material used in application should be burned or stored in airtight bag with water.

Shake before use.

Keep out of the reach of children.

***Always test the product on a piece that is not visible before use.***

***We hope you enjoy using Guardian Wood Oil!***
